Jonathan Arey, Secretary & General Counsel

January 18, 2018

Dear Neighbor:

The Maine Turnpike Authority would like to make you aware of an upcoming project near you. Starting this week, crews will be working on the construction of emergency vehicle access ramps near the Dutton Hill Road Bridge that carries traffic over the mainline of the Maine Turnpike. On the back of this letter is a map showing where the ramps will be located. These ramps will be gated and primarily used by Maine Turnpike Authority maintenance vehicles and during the winter months, snow plows, but will also be available for other emergency vehicles, such as the Fire Department or Police Department, as needed.

The work that will start this week includes placing of signage, surveying and flagging of clearing limits. Clearing for the ramps should begin next week and will last for approximately 2 to 3 weeks. After clearing is completed, there is some ledge that needs to be removed and will require minor blasting. The contractor is required to perform a pre-blast survey of homes and structures within 500 feet of the blasting area, so you may receive a visit to your home if you are within that area.

Your patience during this construction period is greatly appreciated. We apologize for any inconvenience caused by the project. If you have any concerns or questions, please do not hesitate to contact me by phone at (207) 482-8119 or email at ecourtney@maineturnpike.com.

Very truly yours,

Erin Courtney
