**Just a time to mingle and visit with friends and neighbors.**

---

**Winter Update  
March 2016  
Annual Meeting  
July 23, 2016**

## Water Quality Monitors Needed

FLA regularly tests Forest Lake waters to monitor clarity and other factors that indicate declining water quality.

As the 2016 season approaches, we are hoping to find a few lake residents with an interest in volunteering as a water quality monitor.

Training is available through the [Maine Volunteer Lake Monitoring Program \(VLMP\)](#) with details to be released soon.

Contact Janene Gorham with any questions or for details on registration.
